（Warning! Adult assembly required) Carefully follow the instructions below on how to quickly and easily set up your new tree.

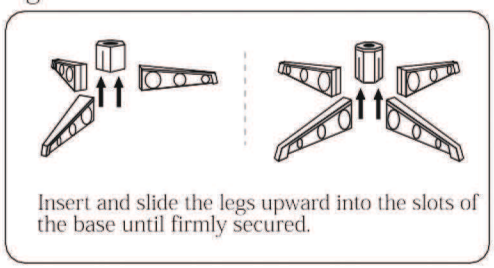
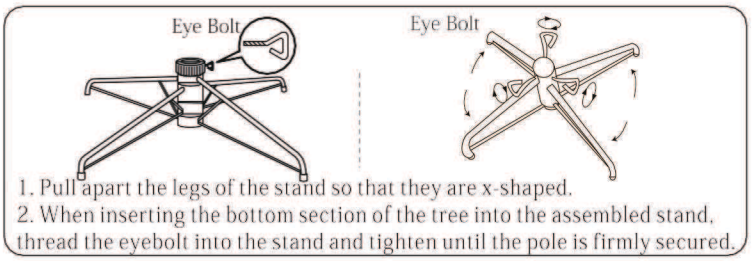
2. Assemble the tree stand and place on a level surface. (See Fig. A)

Fig. A





3. Assemble the tree from the bottom to the top. Start with the bottom section and insert it into the assembled stand. Make sure the pole is firmly inserted and secured into the stand. (See Fig. B)
4. Continue by inserting the middle section(s) into the bottom section until the tree top is inserted.
5. Allow branches to fall into place or gently pull up and out. When adjusting branches, be sure that all wires are free of branch hinges.
6. Begin to shape the branches and tips working from the bottom to the top. Start with tips farthest from the pole and fan out one to the right, one to the left and one at the center of the main stem. (See Fig. C)

7. After shaping the entire tree following the previous step, slightly upsweep all branch tips for a uniform look. Shift branches to fill any gaps. Your Christmas tree is now complete and ready to be decorated.
